Emergency Response

Risk Assessment

Chemwatch SmartSUITE provides Chemical Management tools on location.

Now mobile, the SmartSuite allows Chemwatch users to access extensive Chemical Health and Safety information. SmartSuite also provides access to Control Banding Risk Assessment module.

SmartSUITE allows you to access:

- Chemwatch Gold MSDS (SmartSDS) – in 47 Languages and multiple formats (GHS, REACh, Local)
- Chemwatch Hazard Assessments – MINI MSDS (SmartINI) - in 47 Languages
- Chemical Emergency Response Guide (SmartER)
- Chemical Risk Assessment module (SmartCOBRA)
- Access to generated Risk Assessment Reports

With SmartSUITE, you may also:

- Share documents using your e-mail account
- Sync chemical inventory to and from the Cloud (your Chemwatch account)
- Geo tag the location(s) of interest for easier Chemical tracking.

Available on the **App Store**

Geotagging

- **Create Chemicals Stores in the cloud**
- **Plot your locations on Google Maps**
- **Use "Current Location"**
- **Track chemicals worldwide**

Smart**SDS**
Gold MSDS
